OUR BRAND VALUES

Urban Legend is a brand by
CasaMia Interior Ltd.

Born from the will to create accessible Designs that do not compromise innovation, quality and style, "Urban Legend" is a freedom brand first and foremost. We create what we like. We believe the best way to keep our innovative and creative spirit alive every day is to love what we do, and to do it with purpose. We constantly re-invent ourselves. Our Designs cannot be classified under one particular style, but rather incorporate different languages to create unique statements. Our Design vision is very focused on what we call our "emotional intelligence", or our capacity to be moved by a simple detail, a shape or a texture.

Our style is minimalist yet sophisticated, warm and authentic yet resolutely contemporary, innovative and sometimes conservative. These contradictions, we do not fight them, but we integrate them fully into our work, and they define the very unique "Urban Legend" signature, between Artisan well kept knowhow and "modern lifestyles".

"There is an invisible, subconscious feeling that connects us to the things we love. It is this very intimate and ethereal emotion that we strive to ignite through our products"

*D.Jamet
Head of Design*

OUR PRODUCTS

Our furniture is manufactured in Vietnam, by highly skilled workers in our export-standard factory. We put a high priority to work with people who take pride in what they do, and aim at achieving higher goals with us, in the respect of their integrity and health.

The wood we use in production comes from sustainable forests. Our Oak and Walnut are FSC labelled, from US or European logs in the highest grade. Our stone tops come from Grece and Italy, our Porcelain tops are from Spain, and our Leather is 100% Italian.

We bring together the best materials and know-how from producers all around the World to create furniture and objects that connect with the end-user through a deep, ethereal emotion. Objects that last, and that one wants to cherish.

As a manufacturer, the best way for us, to contribute to a better future is to ignite a sense of respect for the products we make, so they can get passed on to the next generations.

- / FSC timbers
- / Human-scaled manufactures
- / Ethically sourced &
- / Low-environmental impact materials
- / High emotionnal value
- / Made to last

> This is how we strive for a better World!

CORNELIA

A beautiful pleated design, a range of 4 tables available in 5 different finishes, and a very contemporary yet elegant Design. Meet Cornelia! This collection made with a 100% concrete base is sharing a single mold for 4 unique pieces of furniture.

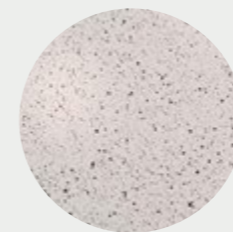

Suitable for both indoor and outdoor spaces, it's available in faux-terrazzo, concrete color or with a striking marble pattern. The natural and luxury look of marble comes without the inconveniences such as cracks, weight, porosity and price. Yet it's hard to distinguish it from a real stone. Wow effect guaranteed!

THE TERRAZZO LOOK

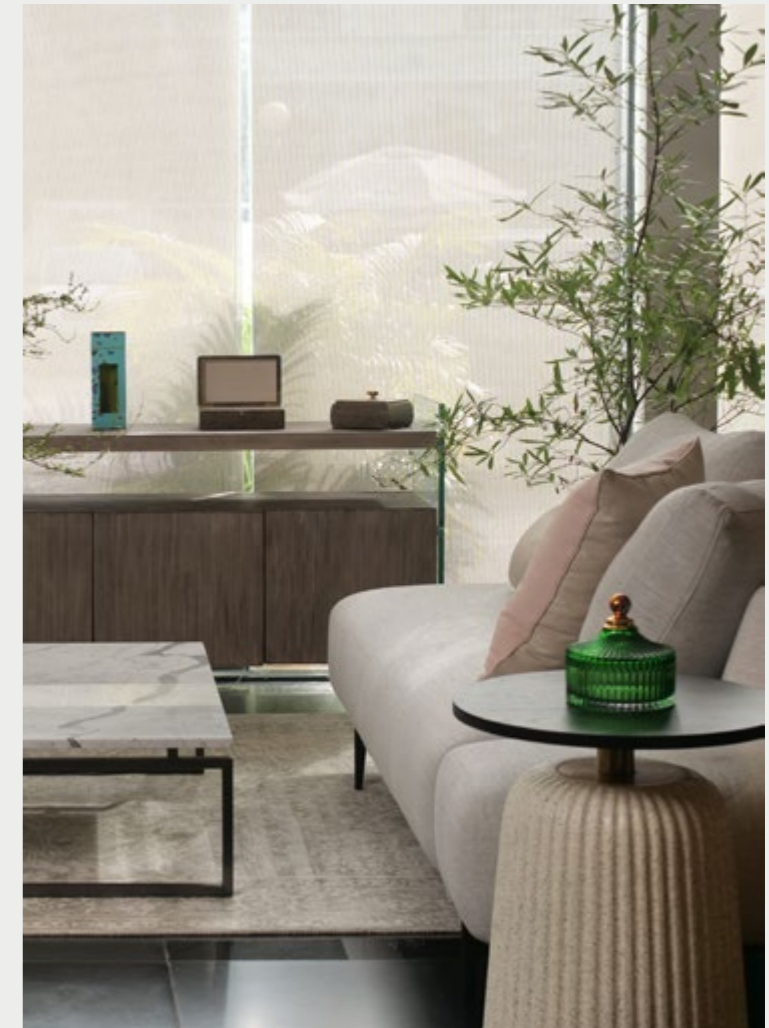

From the living to the bathroom, and from the patio to the garden, the Terrazzo finish will give a light and natural touch to a modern or a more tropical living space. Great for a residential use, it's also a perfect choice for a hotel fit-out, and will make a strong lasting effect in a lobby or a room while keeping an elegant and discreet look.

THE WHITE MARBLE LOOK

For a more catchy yet elegant and classy effect, our white marble finish will enhance your space with its luxury look. The marble veins are so real it's hard to call it a "faux" marble... yet it is much lighter, more sustainable and a lot more affordable than real marble!

03.

THE CONCRETE LOOK

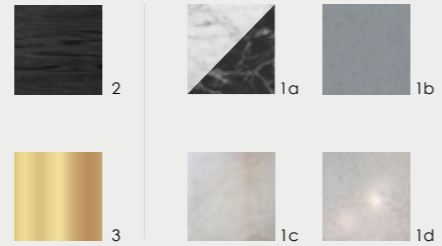

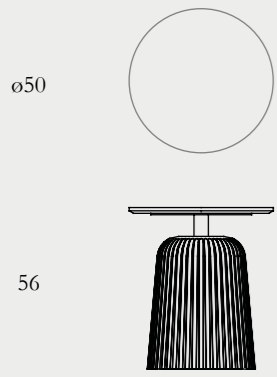

With a very modern matte concrete texture rich in nuances and tones, this finishing is perfect for contemporary interiors and mid-Century Design lovers. It will match a modern-industrial interior and a scandinavian home alike with great discretion and a true sense of style.

The concrete finishing echoes the sleek curves and look of the Cornelia collection in perfect harmony and brings a sense of peacefulness to the space. It also awakens your senses with a great texture that feels nice to touch.

PUPIL

With its luxury look and bold Designs, this poly-resin collection is made to fit both indoor and outdoor environments thanks to a versatile and care-free material, as easy to maintain as can be, it is also a sustainable alternative to natural marble stone although undoubtedly similar in the look!

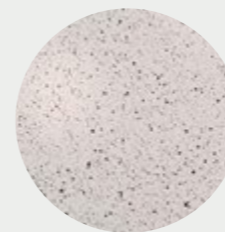

Available in faux-terrazzo, concrete color or with a striking marble pattern. The natural and luxury look of marble comes without the inconveniences such as cracks, weight, porosity and price. Yet it's hard to distinguish it from a real stone. Wow effect guaranteed!

ARCHITECT

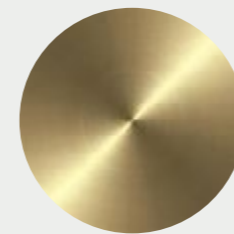

With its references to the Post-war modern architecture, and in particular to the Chicago Group which Frank Lloyd Wright was the most famous ambassador, this range is composed of materials commonly used in architecture (steel, glass and wood) in an asymmetric architecture defined by large overhang volumes. The signature of the later-called "Prairie school" architectural style was characterized by panoramic bay windows, overhang roofs, solid construction and integration to the environment.

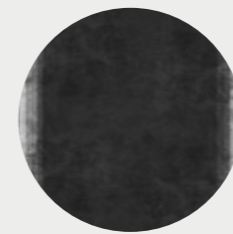

The prominent use of glass in this collection was then an evidence in the first sketches, as transparency and light were two key elements of the "Prairie style". Functional architectural elements are symbolized by the pin-trays featured on the cabinets above the glass tops.

Metal legs are supporting one side of the cabinets, while a monolithic wooden block is supporting the other, creating the asymmetry typical of mid-century's modernists, with a vertical structural element.

sundries tray in nubuck

Coffee table

The recessed leather sundries tray (optional) on top of the Architect cabinets and coffee table is one of the main features of this collection. It can be used to place your keys, a phone or anything else that you do not want to put directly onto the glass, to prevent scratches. A nice vase or a secret box will look nice too, and keep your table tidy!

Console table

With a bag compartment, a drawer to store the essentials, and the distinctive sundries tray to welcome your car keys, glasses and phone, the Architect console has all the necessary features that one will need in an entry-way or a lobby.

Dining chair

The star of our Architect collection is undoubtedly the dining chair. With its seat and back padded cushions upholstered in a vintage "banquette bench" style, it also has an adjustable backrest, with a distinctive brass knurl in the back. The solid steel legs are laser cut for a sharp look. More! It offers an armrests option for the dining or working table.

CLOUD

The Cloud collection was born from the desire to create an upscale collection with a mix of innovative and high-end materials. Made out of smoked Ash (or optional walnut), stainless steel legs and extra-thin porcelain inlays from Spain, this harmonious combination of the finest materials combined with our premium leather, brings luxury and sophistication to the home, with a great focus on details.

The name "Cloud" initially comes from the cloudy texture of the porcelain chosen by default for our collection. However all the Cloud products can be ordered with different porcelain colors, to match every tastes, making it a versatile collection on top of a luxury Design!

"Porcelain is one of the oldest known materials that has been crafted and later manufactured by humans. Along with its stunning resistance and possibilities, I find in this material a singular beauty that might come from its long history"

T.Hagen - R&D director

Working chair

01.
Cloud armchair and desk

With the vintage mid-century look of the early overhang tubular chairs, the Cloud chair features a sleek solid stainless-steel frame and a generous seat and back cushion in one piece. The thick foam cushions, in two layers of density provide an unparalleled level of comfort. Its two wooden armrests are making it a perfect working chair and a good match to the Cloud desk.

02.
Detail of the arms in
smoked Ash

Cloud

Dining table

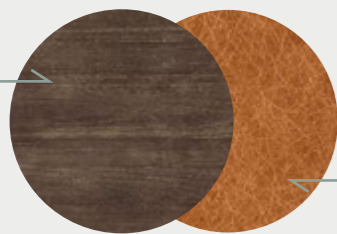

The Cloud dining table is made of a solid stained Ash frame and a stunning extra-thin, jointless porcelain inlay in 3mm thickness with a length up to 3m. Robust, resistant to scratches and stain, the porcelain top is also extra-light and reveal your tableware in a very subtle and elegant way. Add to this the signature legs in solid stainless steel, and you have the recipe for a fancy diner!

ANNABELLE

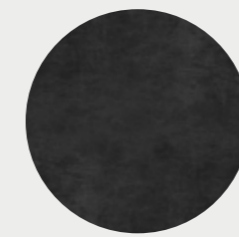

tribute to the freedom and the curves of the 50's Designs, the Annabelle collection is also a contemporary statement and blends the classicism of marble patterns with a voluptuous and timeless look. This collection is using white Oak as a main material, and features marble or MDF tops in a glamorous satin copper color, with a choice of premium Italian leathers for the bed and copper laminated mirror features.

Annabelle dining table and chair are also available in walnut for a more high-end, masculin look. Wether used in a residential or a hotel space, the furniture in the Annabelle range will fit alongside classic or Scandinavian furniture alike, with utmost simplicity, discretion and style.

ELSA

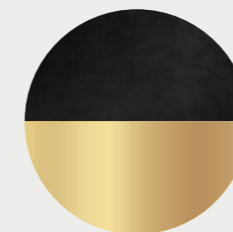

Elsa is inspired from the Arts décoratifs period. With well balanced volumes and sleek architectural details, this collection is a tribute to the prosperous and audacious period of the 1920's and 30's.

Simple in the construction, light and robust in the same time, Elsa borrows the graphic language of the designers, architects and craftsmen of this incredibly rich period where the hand skills and the intentions of the makers prevailed over mass production and profitability.

The attention to detail is brought to another level on the cabinets, and it offers a very wide range of possibilities.

With two finishes available (oak and walnut) and many options of sub-materials, Elsa features solid FSC woods, high-grade stainless steel frames with rose gold finishes in option, beautiful leathers and opulent fabrics... Enough to make one's home an Art decoratif temple!

CONTACT

How to reach us?

Urban Legend is a brand by Casamia Interior. Our showroom is located in the residential District 2 of HCMC. An ideal place to receive our customers, surrounded with trees, and amazing Vietnamese restaurants, it is just a few steps away from the quiet Saigon river.

Come visit us, and have a taste of the real Vietnam. The neighborhood offers plenty of accomodations by the river, with a very unique Indochina feel. This is why we love being here!

Our address:

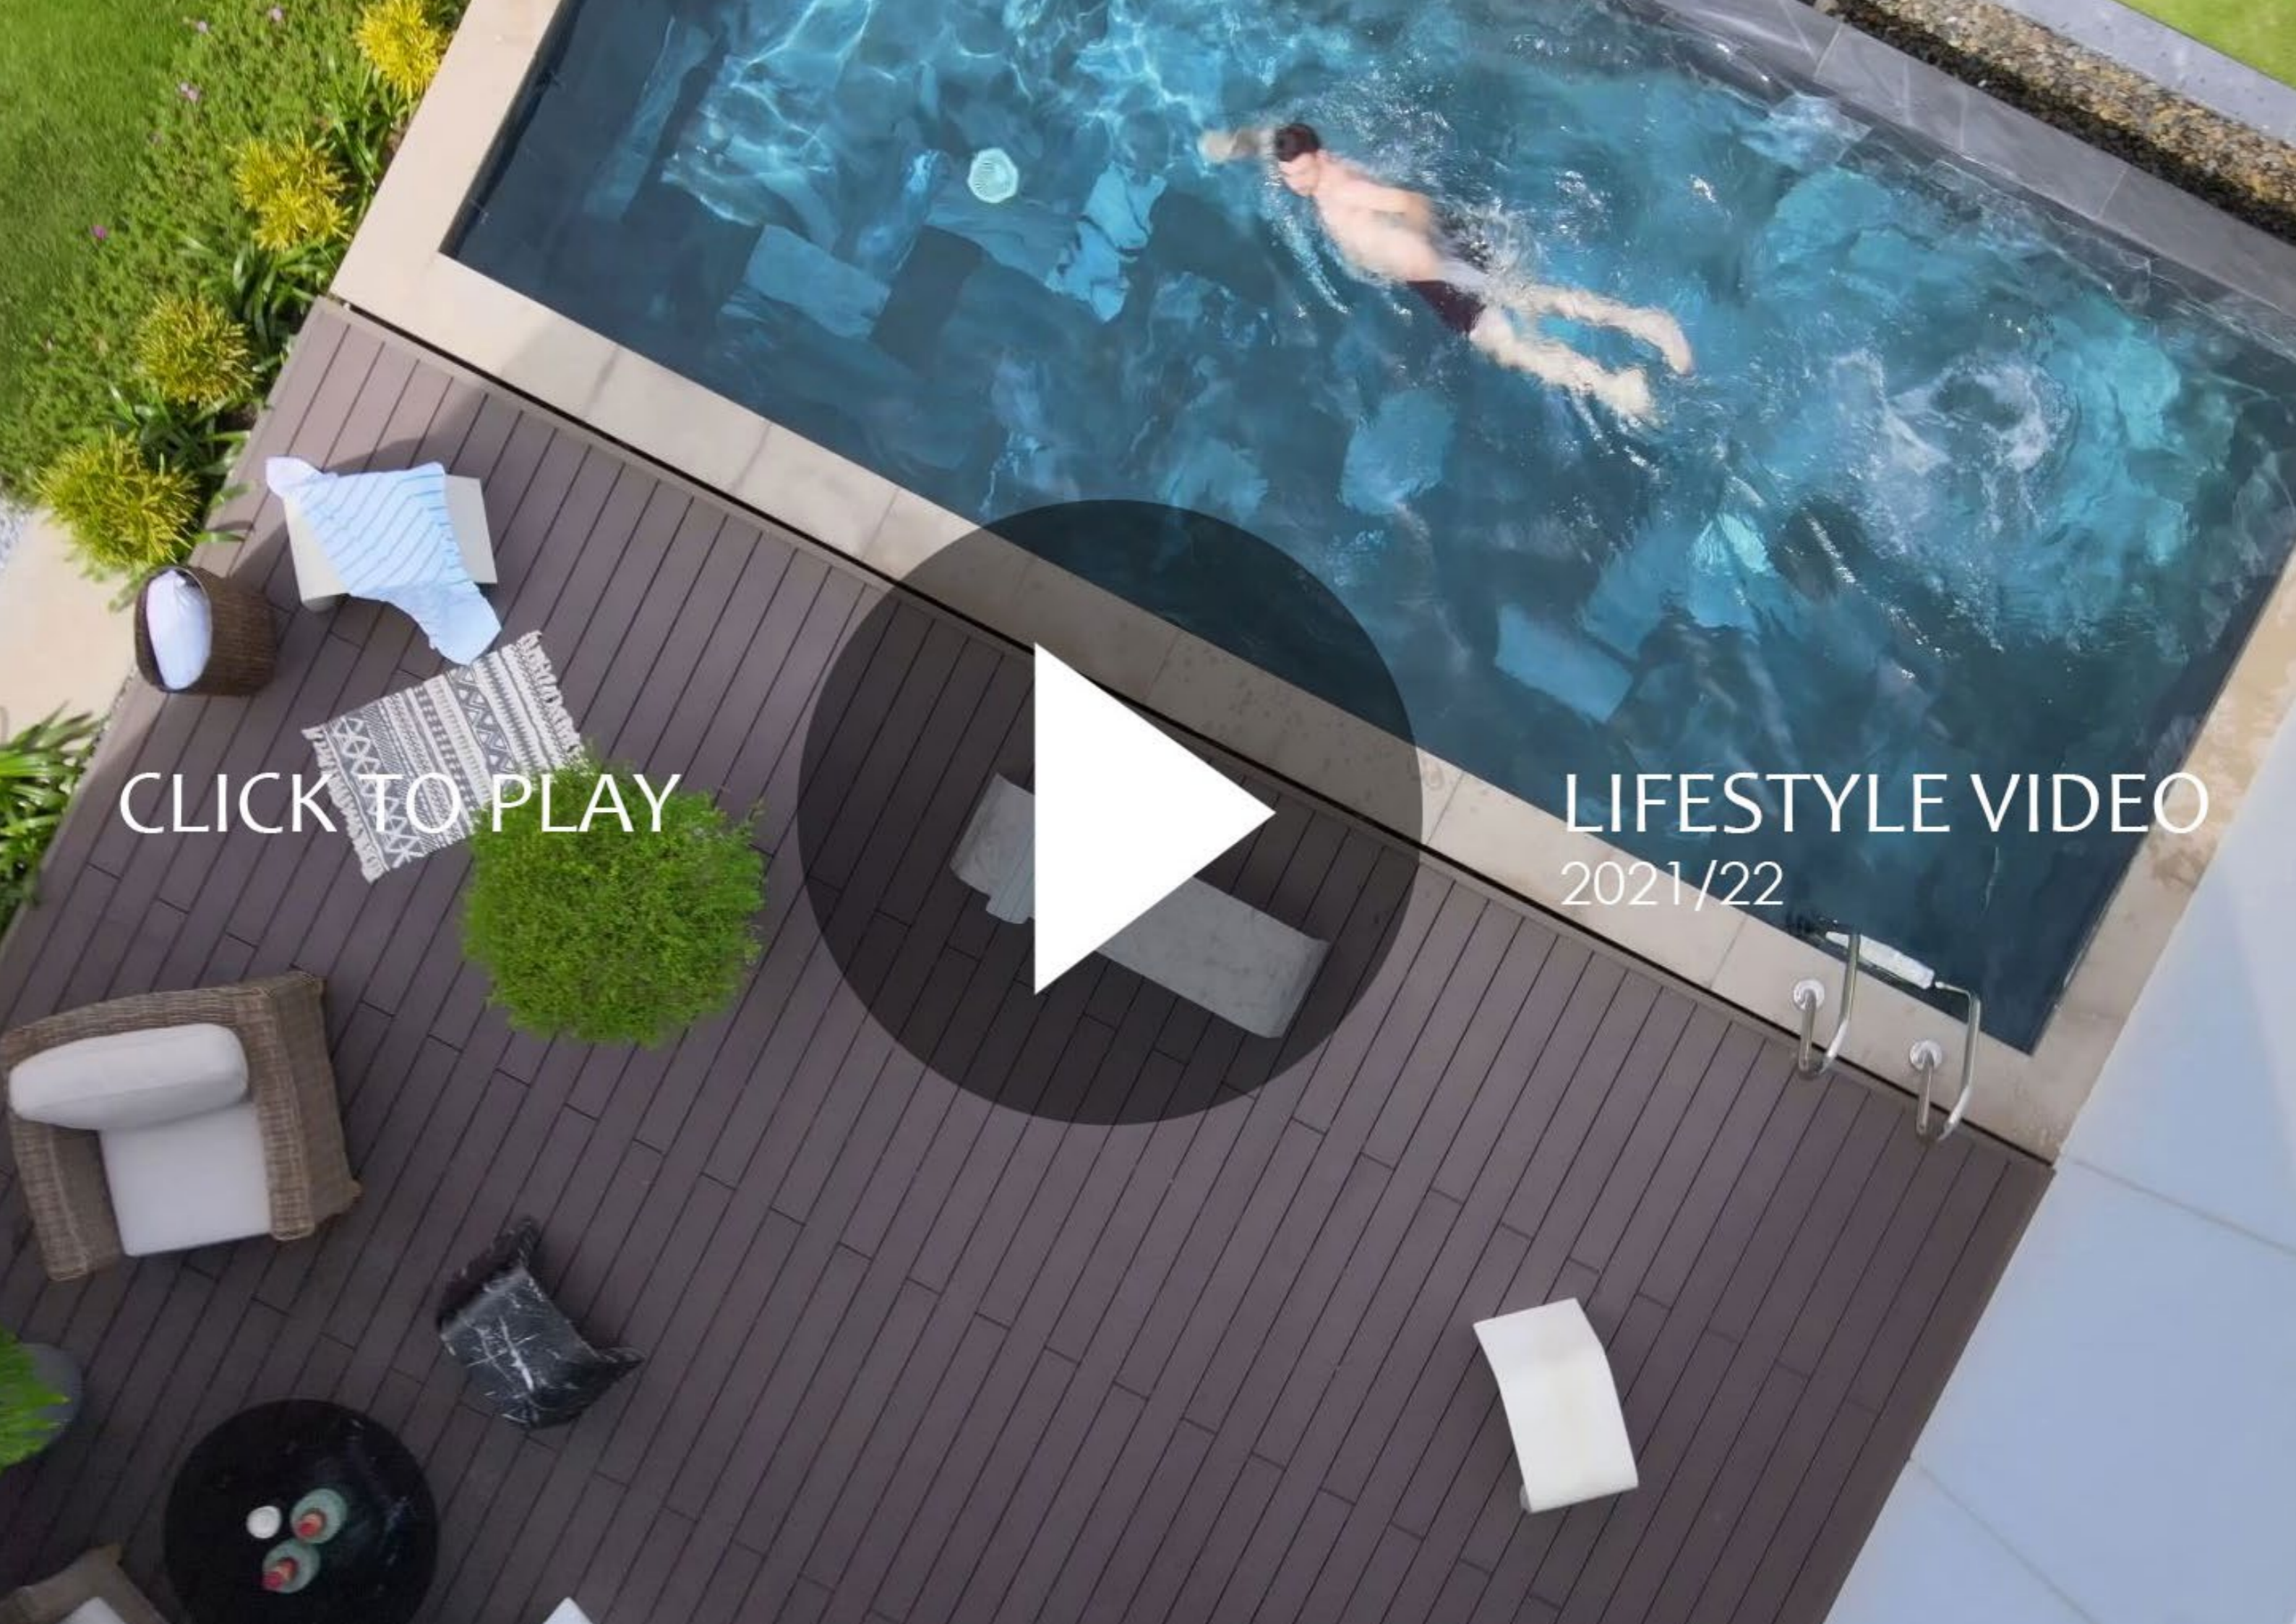

CasaMia Interior Ltd.
14A-15 Thao Dien, Thu Duc City,
Ho Chi Minh City
